

Product-Information

Alu-Special-Polish-Color E

GRM registered product for metal cleaning and caring

Properties: For cleaning and caring metal surfaces of anodized aluminium, alloy steel, brass and copper.

Alu-Special-Polish-Color E removes fat-, oil- and pigment dirt. It cleans and preserves in one go. Alu-Special-Polish-Color E contains a special fat dissolver and cleaning enhancer. Corrosion-layers and light marks are easy to remove.

Alu-Special-Polish-Color protects from the bad weather and leaves behind a perfect lustre and keeps in proper condition for a long period of time. Alu-Special-Polish-Color E does not attack bright metal and does not leave behind any residue on sealing compound and joints.

Dosage: pure

Directions for use: Shake very well Heidt & Schwarzfeld Alu-Special-Polish-Color E before using. Dry the ground then apply the product in a thin layer with a smooth absorbent cloth or a white pad. Allow the product to dry. Then polish with a smooth cloth.

Application: approx. 20 - 50gr/m² per application

Note: Please follow carefully the instruction and safety recommendations out of the EU-safety regulation form.
