

Product-Information

Metal Polish Cleaner MP-2011 GRM listed Polish Cleaner

Properties: Cleans and protects all metal surfaces of eloxal aluminium and alloy steel. Metal-Polish Cleaner MP-2011 removes fat, oil and pigment dirt. Metal-Polish Cleaner MP-2011 contains a special fat dissolver and cleaning intensifier. It cleans and preserves at the same time. With Metal-Polish Cleaner MP-2011 the treated grounds are protected from corrosion. Metal-Polish Cleaner MP-2011 is quick and easy to be used. Afterwards the cleanings will be easier. The product is very economical. No lasting protection.

Dosage: pure

Directions for use: Shake very well Heidt & Schwarzfeld GmbH Metal-Polish Cleaner MP-2011 before using. Wipe dry the surface, which has to be cleaned. Then apply Metal-Polish Cleaner MP-2011 in a thin layer and on a large area with a soft cloth. Light polish. By that means the dirt cannot lodge back easily on the treated surfaces.

Application: approx. 60 up to 100g/m²

Note: Do not use Metal-Polish Cleaner MP-2011 into direct sunlight or on heated plates. Do not use at a temperature below + 10° C.

Please follow carefully the instructions and safety recommendations out of the EU-regulation form.
